A Message from the Executive Director of the Master Plumbers Council

It's that time of year again! Our 9th Annual Educational & Energy Efficiency Trade Expo is quickly approaching. This year's Expo will take place on Thursday, October 13, 2016, at the beautiful Russo's on the Bay in Howard Beach, New York. Thanks to the continued support of our gracious sponsors, Con Edison and National Grid, we are greatly looking forward to this year's event and all it has to offer.

Everyone is invited to attend and admission is free, but you must pre-register! The event will begin at 1:30pm with the opening of our Exhibitor Trade Floor. Over forty exhibitors are participating and are eager to show off their new energy efficient, energy savings or ENERGY STAR® products, as well as network with industry professionals. The trade floor will be open until 8:30pm.

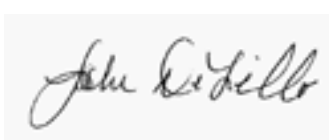

Attendees can take a break from the trade floor and join any of the four workshops we are offering this year. These workshops range from program and code updates to tips to becoming energy efficient. If you would like to attend a workshop, we ask that you please pre-register!

I encourage you to visit the Master Plumbers Council booth for a chance to win some fun giveaways, and you will also have an opportunity to speak with MPC Board Members. For any non-members, please visit the booth to find out more about the new member special we are offering for anyone who joins the day of the trade expo!

For the rest of the night, attendees will enjoy Cocktails and Hors D'Oeuvres, sponsored by CPR Restoration and Cleaning Services and dinner and dessert sponsored by Gil Meyerowitz, Inc. and Venco Sales, respectively.

Please visit www.nycmpc.org/2016expo to register!

I look forward to seeing you at the Expo!

TRADE EXPO WORKSHOP DETAILS

NATIONAL GRID AND CON EDISON ENERGY EFFICIENCY PROGRAM UPDATES

Summary: National Grid and Con Edison are continuously striving to find ways to assist our customers with reducing their energy costs while still maintaining the reliability and comfort they come to expect. Our workshop is designed to provide our customers and trade professionals with needed tools to help them with reducing energy costs and greenhouse gas emissions as well as increase your profit margins. This workshop will also provide information on the New 2016 & 2017 National Grid energy efficiency programs and major energy changes that are going to impact NYC and LI markets.

Speakers: National Grid & Con Edison Representatives

Offered during Session 2

TOP 10 WAYS TO MAKE HEATING SYSTEMS MORE EFFICIENT

Summary: There are a number of ways to increase overall heating system efficiency, most of which can be implemented relatively easily. This session will explore a variety of heating system improvements that are designed to increase overall operating efficiency and long-term system durability.

Presented by: Adam Romano - Director of Training Operations, Association for Energy Affordability, Inc. (AEA)

Educational Credits: BPI and AIA pending

Offered during Session 1 & Session 2

NYC MAYOR'S OFFICE OF SUSTAINABILITY 2016 PROGRAMS AND POLICIES TO REACH 80X50

Summary: The NYC Mayor's Office of Sustainability is committed to helping the City reach Mayor Bill de Blasio's goal of reducing greenhouse gas emissions by 80 percent by 2050, compared to a 2005 baseline. Join this session to learn about the policies and programs that are aimed to help reach this goal, including: and overview of the Building Technical Working Group report and findings and the 80x50 Action Plan, the NYC Retrofit Accelerator, Community Retrofit NYC, the Benchmarking Help Center, and the NYC Carbon Challenge.

Speakers: Representatives from the Mayor's office

Offered during Session 1

UP-TO-DATE INFORMATION ON THE LATEST CODE CHANGES

Summary: Plumbers, you do not want to miss this workshop! Sponsored by the Master Plumbers Council, every year this workshop is always highly anticipated as it provides the most up-to-date DOB information available. It will also review new DOB procedures relating to filing and inspections. In addition, we will discuss new legislation that will change the way licensed plumbers install and maintain gas piping systems.

Presented by: The DOB Sub-Operations Committee, Master Plumbers Council

Offered during Session 1 & Session 2
